NETWORK CABLING SERVICES

CONNECTING THE COMMUNICATIONS OF TOMORROW

ncs

ABOUT NCS

NCS was founded in 1981 in Houston, TX, as a technology-driven, single-source solution provider for all our client's audio visual, cabling infrastructure, design-consulting, networking, and security needs. Since then, we have grown to more than 300 employees across six Texas locations while expanding our services to in-building wireless systems to deliver public safety and cellular communications and network-powered lighting systems. NCS is certified and trained in over 100 different manufacturing lines to install dependable, cost-effective, and efficient network infrastructure solutions.

TRADES

DIVISION 11 – EQUIPMENT

Security Equipment
Audio Visual Equipment
Security Control Equipment

DIVISION 26 – ELECTRICAL

Electrical Protection
Low-Voltage Distribution
Lighting-LED & Control Systems

DIVISION 27 – COMMUNICATIONS

Structured Cabling
Data & Voice Communications
Audio Visual Systems
Cellular DAS

DIVISION 28 – SAFETY & SECURITY

Access Control
Video Surveillance and Sensors
Intrusion, Vape, and Gunshot Detection
Emergency Responder DAS

WHY CHOOSE NCS?

WE WALK THE TALK

Integrity is one of NCS' core values – we will do the right thing, admit mistakes, and do whatever it takes to ensure client satisfaction.

SAFETY IS EMBEDDED IN OUR CULTURE

Our strong safety culture starts at the top and is supported by proactive programs to enable NCS to protect our most valuable assets - our employees.

ON-CALL AVAILABILITY 24/7/365

Our On-Call emergency response team is always available 24/7/365. When you call our on-call number, you will be directed to a representative who can start resolving your issue immediately.

NO SPECS? NO PROBLEM

NCS can help with project design in cases where specs are not available.

REGIONALLY FOCUSED, NATIONALLY CERTIFIED & EQUIPPED

Headquartered in Houston, NCS focuses on work in Texas but maintains national capabilities to support our largest customers.

OPTIMIZING TECHNOLOGY

We utilize advanced tools, systems and processes to manage, update and distribute all project components with the goal of eliminating surprises and keeping contractors informed.
