The Industry Leader for Fiber Optic & Copper Cable Assemblies

High-performance networks are vital for any business. Whether you're undertaking a data center expansion or upgrading your in-house infrastructure, you need to choose a manufacturer with a proven track record of success.

The Industry Leader

The success of your business depends on the speed and bandwidth of your network, which means you need to choose the highest-quality cable to ensure lightning-fast data transfer speeds. High-performance networks are vital for any business. Whether you're undertaking a data center expansion or upgrading your in-house infrastructure, you need to choose a manufacturer with a proven track record of success.

OUR SERVICES

Our experienced and highly skilled team offers custom-design engineering and prototype fabrication. We stock a large inventory of fiber, copper, and connectors for quick turnaround. As your one-stop solution, we can tackle a wide range of projects, including, but not limited to:

- Fiber optic assemblies, fiber assembly, and modular patch cords
- Multimode, singlemode, MTRJ, FDDI, FC, ST, SC, LC connectors
- Industrial cable assembly/weld leads/special cables
- Equipment control assembly: cranes, lifts, fabrication equipment, robotic equipment
- Custom Enclosures/Custom Assembly/Custom Lighting

ABOUT US

For over **40 years**, JAR Industries, an **American-based company**, has provided fiber optic cables, copper patch cords, wiring harnesses, and custom assemblies to a selection of Texas' largest companies. We've proudly built an industry-leading reputation for providing impeccable quality, customer service, fast turnarounds, and competitive pricing.

JAR Industries has established our national stature by standing behind the quality of our craftsmanship and offering a lifetime warranty on any production defects. Our commitment to excellence is further underscored by our quality control system. Better still, we boast a large cabling warehouse with 18,000 square feet of cables and connectors ready to mobilize to meet your project demands. What marks us out from competitors is our ability to deliver flexibility when it comes to pricing and requirements. First, we have procured one of the most substantial buying powers of any cabling company in the nation to secure significant savings for your company. Second, we are capable of adapting to the needs of your business; whether you need one custom assembly in two or three hours, or a million assemblies scheduled over several months, we guarantee on-schedule delivery and project satisfaction.

No matter the size or scale of your infrastructure needs, you can rely on our highly skilled and experienced workforce to supply cables your business can depend on.

WHY CHOOSE US

Strength & Reliability
Our reputation stems from our ability to handle the most challenging situations. If you need high performance from top-tier patch cords and custom cable assemblies, there's no need to look elsewhere.

Innovative & Responsive
We create innovative, highly advanced products that are customized to your specific needs. Our teams will work around the clock to get your order out of the warehouse and on its way to you. Our products help you drastically reduce shipping and installation timelines.

Diverse & Comprehensive
JAR Industries is one of the most diverse manufacturers of high-performance connectivity products and solutions. We provide high-performance networking solutions for manufacturing, industrial, education, and security clients.

Capable & Customized
We know how vital it is for your data infrastructure to perform. That's why we've developed a full suite of flexible solutions that are suitable for sustaining any enterprise application. We take the necessary time to understand your needs and provide customized, turn-key solutions that exceed your expectations.

Partnership & Cooperation
We firmly believe that you don't merely become a client of JAR Industries; you become a business partner. JAR operates as if we are an extension of your team, providing tailored solutions with rapid-response turnaround times.

AN AMERICAN-BASED COMPANY OFFERING A LIFETIME WARRANTY

COPPER CABLE ASSEMBLIES

TYPE OF ASSEMBLIES
- Audio cables
- CAT 5/ CAT 6
- Printer, ribbon, serial, USB, RF
- Video, telephony, and wiring harnesses

CABLE USED
- CAT 6-E, CAT 6, CAT 5-E, CAT 5 25-pair, and CAT 3
- Coaxial, audio/video

EQUIPMENT / CAPABILITIES
- 1 Ideal industry wire prepper system II for automatic wire cutting
- 2 REEL-O-MATIC wire cutter systems
- 3 Spoolers
- 4 Amp RJ45/RJ13 pneumatic presses
- 1 Artos CS-26A cutter/stripper
- 1 Amp 25 pair telco machine
- 6 Solder stations
- 2 Brady printers
- 1 Fluke DTX-1200 CAT5-CAT6a Cable Analyzer
- 1 Cirrus 1000RT – Cable tester
- 1 Cirrus Signature 2000 – Cable tester
- 100+ Hand crimpers, cutters, and strippers

FIBER OPTIC CABLES

Since 1992, JAR Industries has offered a full line of custom fiber cables. Multimode and singlemode fiber optic jumpers of all lengths and configurations are produced in house to your specifications.
